

Are beetles going to kill all our forests?

How is our warming climate affecting our forest's health?

Won't all the beetle killed trees cause huge wildfires?

I'm  
Toast!

What will happen to wildlife in Colorado?

Me  
Too!!

Interested in learning more about the impacts of Climate Change on forest health in Colorado?

# Colorado Forests At Risk!!!

Saturday & Sunday  
October 23 & 24

Rocky Mountain National Park, Estes Park, Colorado

Come learn about the intimate relationships between a warming climate, insect epidemics, catastrophic wildfires, and impacts to wildlife. This content-rich workshop will include expert guest speakers, outdoor learning experiences, and cool Project Learning Tree activities.

Appropriate for teachers of grades 5-12

1.0 CSM credit hour available (\$50)-- District credit also available

Cost: Includes 3 Project Learning Tree Activity Guides, Park entrance, 2 box lunches, snacks, supplementary materials and fabulous prizes. Cost is \$30. Lodging is NOT included.

To register online or for more information, go to [colorado.plt](http://colorado.plt) or contact Shawna Crocker at [Shawna.Crocker@colostate.edu](mailto:Shawna.Crocker@colostate.edu) (303-202-4662).

Register by the October 8<sup>th</sup> deadline and be eligible for a lodging stipend

Sponsored by Rocky Mountain National Park  
and the Colorado State Forest Service.

PLT is a program of the American Forest Foundation.
